

## WEB HOMEWORK

DR.SOFYAN SAMARA

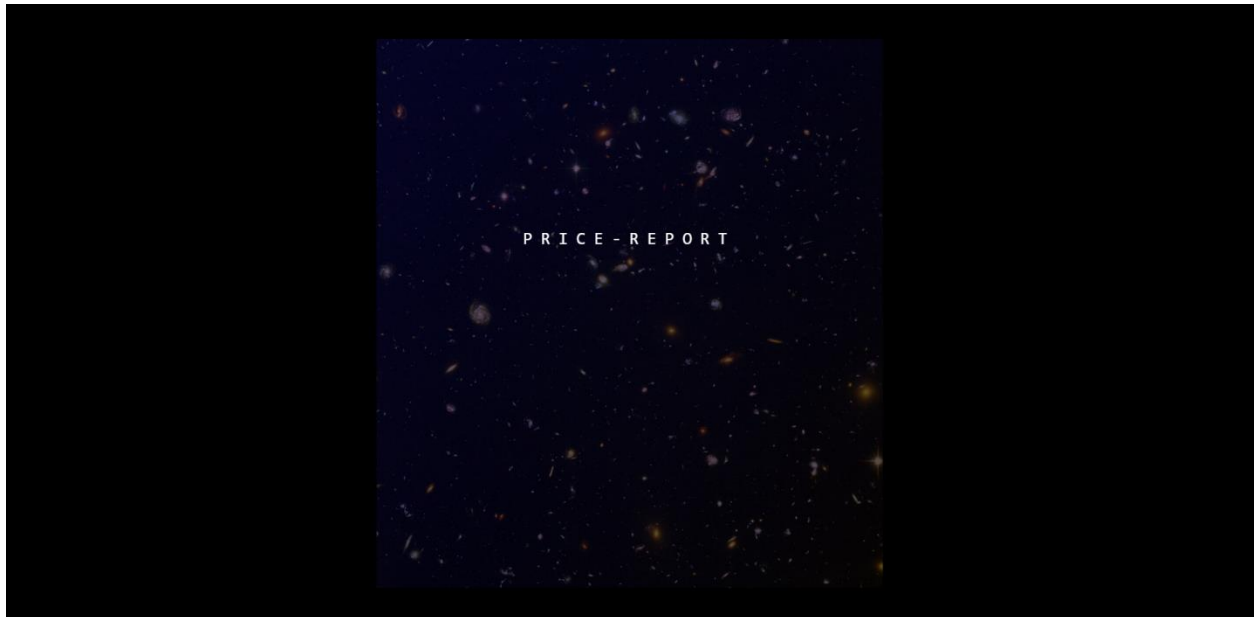

NASSER KHALED

### First : The Main Page

*This is the main page, and it is the first page that must be accessed, and through it the required report is determined by clicking on one of the options available in it( Adv report , Quantity report or Price report).*

## Second: The Price-Report Page

*This is how it appears to the user after clicking on the price report option in the main page directly (a card that has been moved using CSS), and after placing the mouse on the card it becomes like this.*

***On this page there are several clicks***

- 1. Line: It converts the CAHRT type into a Line type***
- 2. Pie: It converts the CAHRT type into a Pie type***
- 3. BAR: It converts the CAHRT type into a Bar type***
- 4. BACK: To return to the home page.***
- 5. UPDATE: It works on modifying the data inside the DATABASE - according to what was entered - according to the following steps***

## STEP NUMBER ONE:

fill the blanks with the required data as shown

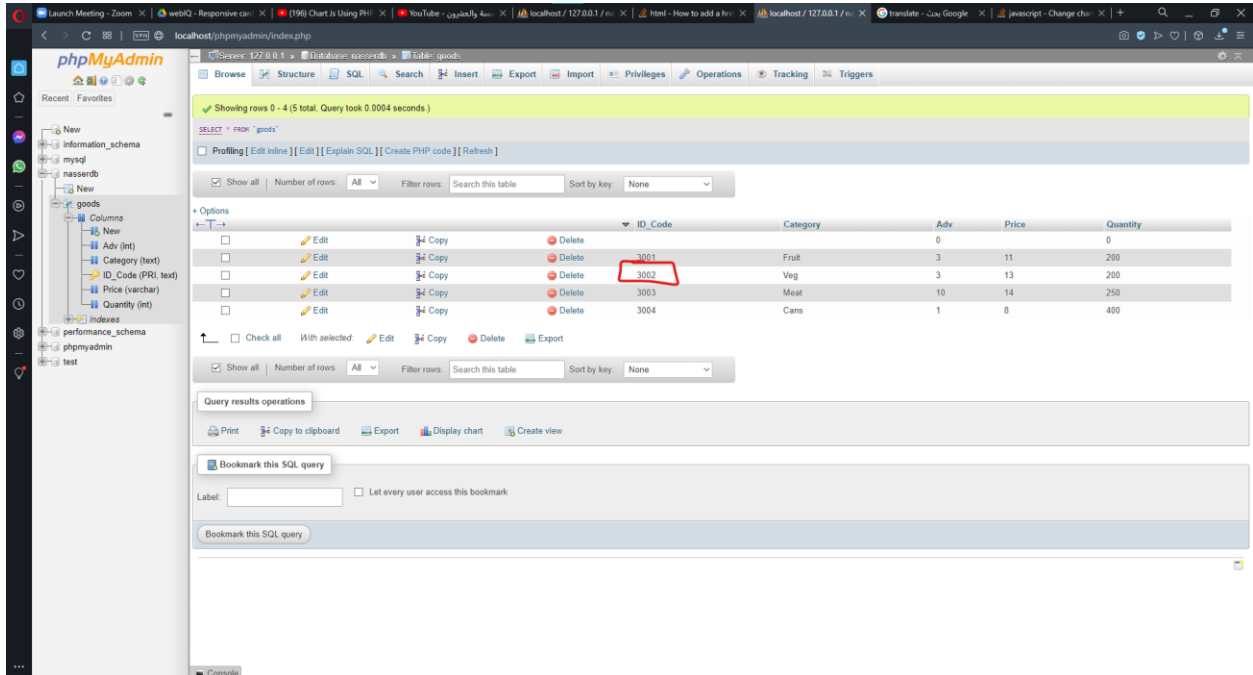

## Notes

\*\*\* as we can see in this pic the price of veg was 2 before click on update

\*\*\* 3002 is the id (the unique row) for veg in the database as shown

Showing rows 0 - 4 (5 total. Query took 0.0004 seconds)

SELECT \* FROM 'goods'

Options: Show all | Number of rows: All | Filter rows: Search this table | Sort by key: None

	ID_Code	Category	Adv	Price	Quantity
<input type="checkbox"/>			0		0
<input type="checkbox"/>	3001	Fruit	3	11	200
<input type="checkbox"/>	3002	Veg	3	13	200
<input type="checkbox"/>	3003	Meat	10	14	250
<input type="checkbox"/>	3004	Cans	1	8	400

Query results operations: Print | Copy to clipboard | Export | Display chart | Create view

Bookmark this SQL query

Label:  ☐ Let every user access this bookmark

Bookmark this SQL query

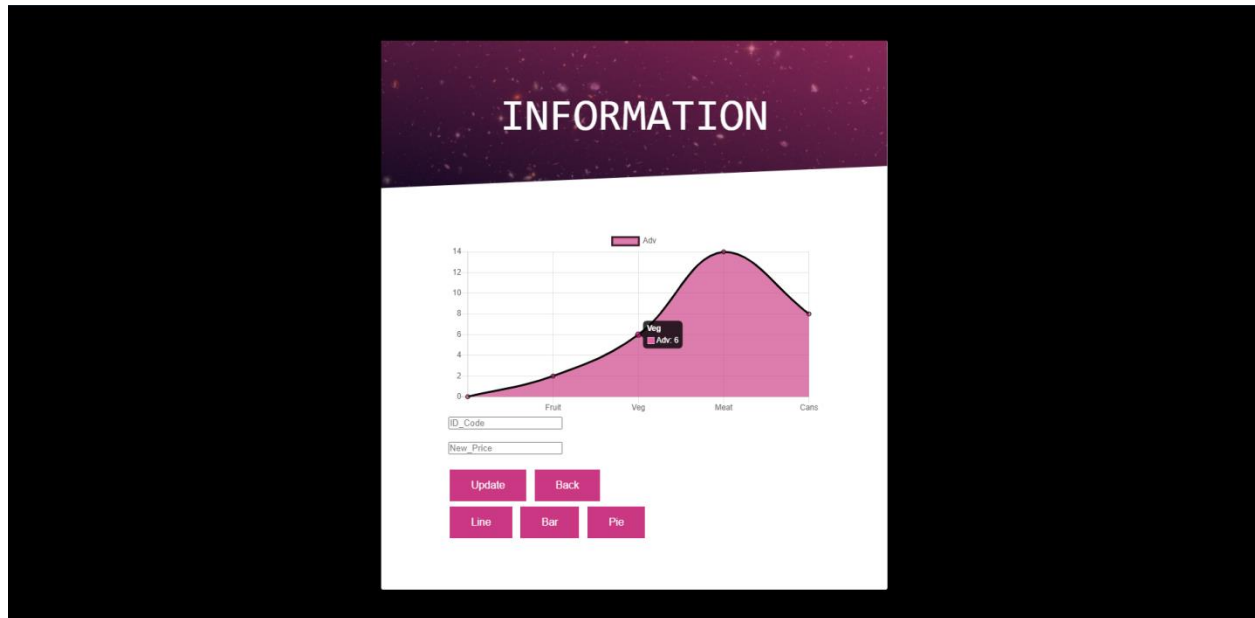

**STEP NUMBER two:**

Click on update button

***After doing these 2 steps correctly the data must to be updated and the chart too –cause it's a dynamic chart – and connected to the database***

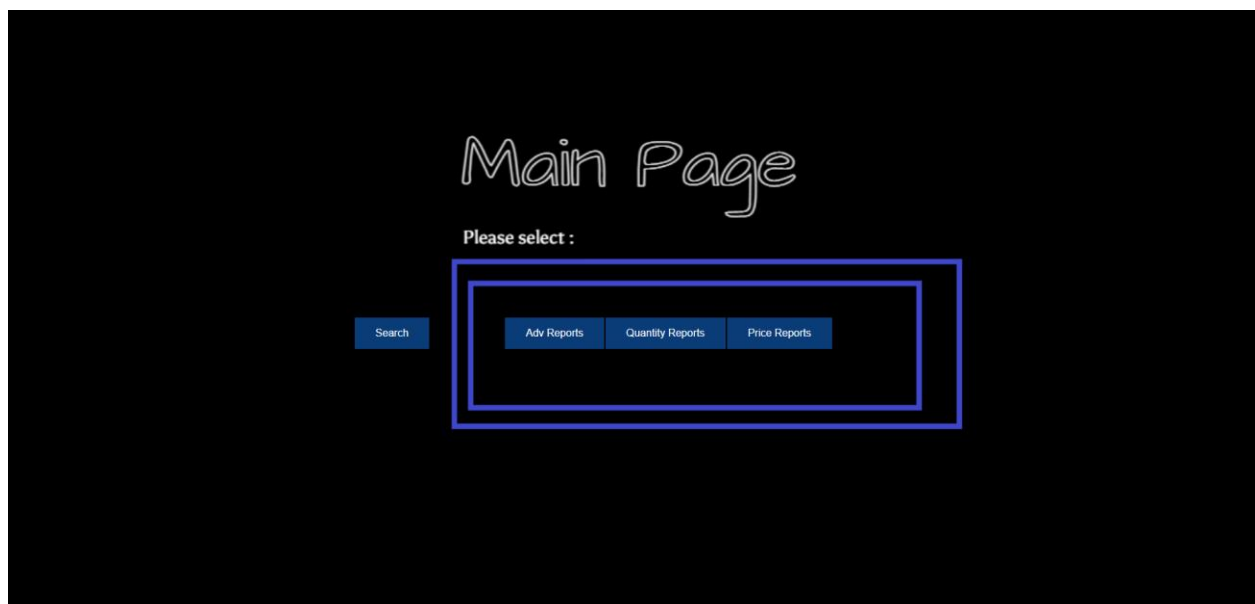

***So it will affected by the changes in it***

## The result:

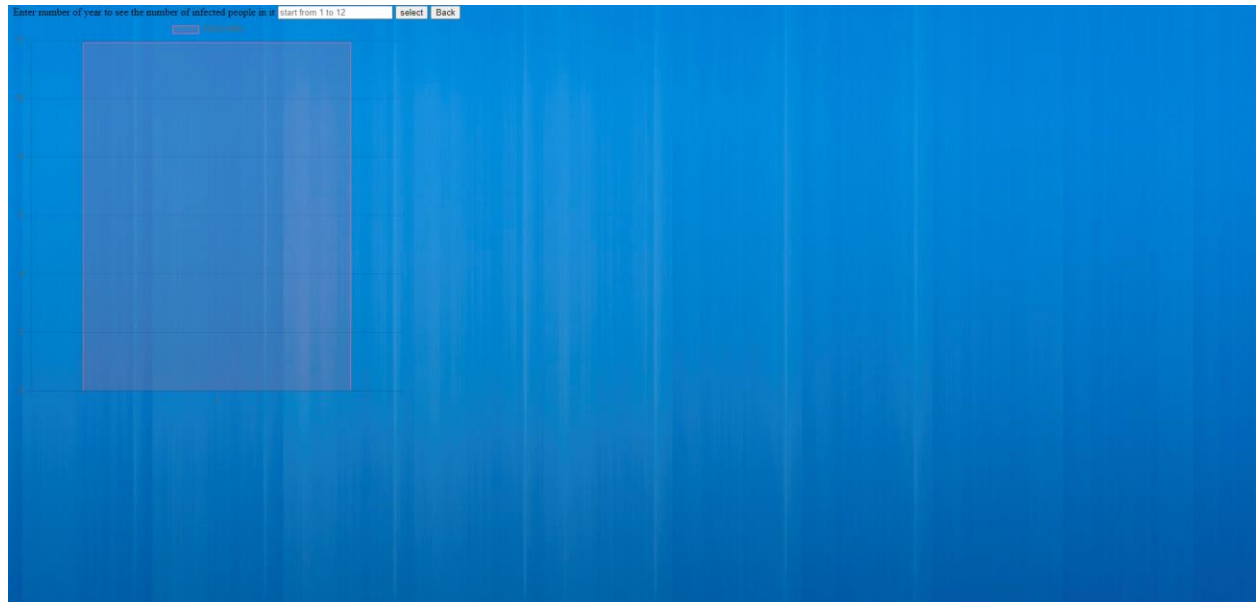

NOTE: What applies to this page applies the same to the other two pages, but only with different colors and for the guarantee. All pages have been tried on the attached video .

## Third: The Search Button

[This click brings you to this page](#)

On this page, you can choose the month you want, and the earnings earnings for that month will appear for you.
